STUDENT
MEASURABLE LEARNING OBJECTIVES

Goals are a blueprint, a plan for the future. Meaningful goals are motivators that keep us striving for even greater achievements. You should set short-range goals that can be objectively measured. Measurable areas include speed in performance, accuracy, performing new tasks, learning new skills, and obtaining additional information and training.

The learning objectives will be reviewed by your supervisor (who suggest changes or additions) during the first two weeks of the semester and approved by the Co-op Faculty Coordinator.

At the end of the semester, your supervisor will evaluate how well you accomplished each of the objectives by assigning a percentage figure (0%-100%) in the column provided below.

By the end of the semester, I will accomplish the following objectives as rated by job supervisor:

		Supervisor Rating %
1.		
2.		
3.		
4.		

COOPERATIVE EDUCATION AGREEMENT

We, the undersigned, agree with the validity of the above learning objectives. The employer and the college agree to provide the necessary supervision and counseling to insure that the maximum educational benefit may be achieved for the student's work experience. The student agrees to abide by the Cooperative Education's guidelines, the job supervisor will evaluate the student's learning objectives by the date specified, and the college will award credit for work successfully accomplished.
