

The Learning Resource Centers would like to welcome our new RCCC president—

Dr. Carol Spalding.

Dr. Spalding came to RCCC from Florida Community College In Jacksonville. She assumed her duties as President August 1, 2008.

We are looking forward to her leadership and guidance in the future..

NEW LAPTOPS FOR THE LEARNING RESOURCE CENTERS!

Laptops have been purchased for all four campuses

The Learning Resource Center is happy to announce that new wireless connections have been added in the LRC and patrons will now be able to check out laptops for use in the LRC.

The laptops were acquired through Library Services and Technology Act grants and a match—Basic Equipment Grant (\$27,582.08 total) and Internet Infrastructure Improvement Grant (\$59,136.01 total) — from the State Library of North Carolina. The grants were used to purchase 24 computers that were distributed to our four campus locations—CBTC, Cosmetology, North and South campus. The money was also used to provide wireless access in all the locations.

After reading the Equipment Lending Policy and signing an Equipment Liability Form, patrons may check out a laptop for **2 hours** using a validated student ID or drivers license. Car keys, or other acceptable item will be required as a deposit.

Come in and try one out!

Information for you

Complain with Meaning

“According to Leif Hokanson, of Personal Best Consulting, you shouldn't waste your breath complaining about something to someone who can't help you solve whatever has got your goat.”¹ Complaining to someone about something he or she can't do anything about is not helping the situation. The best thing to do is locate a person in the area that deals with your complaint and ask him or her to explain or correct the problem.
